Why Quarts?

Ashby's Sterling's award-winning ice cream has created such a buzz and "cultlike" following over the years, that the demand for some of the flavors to be available in retail packages has been overwhelming for the company.

Ashby's Sterling has introduced a line of ten popular flavors that our loyal fans can buy and take home to enjoy later with their family and friends after a great meal, or with their own homemade desserts.

Each year, Ashby's Sterling hand crafts several "experimental" flavors to taste test, and decide which are going to be added to our line up of hand-dipped ice cream flavors.

We have over 30 years' experience creating award-winning ice cream flavors, as evidenced by our numerous awards presented by the National Ice Cream Retailers Association, The World Dairy Expo, and The Los Angeles County Fair. Each time, our quality has been affirmed by independent dairy industry judges. Our product is manufactured in a certified SFQ (Safe Food Quality), Level 3 food processing plant with an "excellent rating".

In addition to the 10 flavors presented here, you will find sixty more flavors available in 3-gallon foodservice containers at Ashby's Sterling Ice Cream, that are sold to foodservice outlets such as ice cream parlors, restaurants, food courts, and supermarkets and convenience stores with dipping stations.

Enjoy Ashby's hand-crafted flavors that are designed, not copied.

"The Measurement of Purity and Quality"
